Technological Forecasting and ... - Mother. A mother is the female parent of a child. Mothers are women who inhabit or perform the role of bearing some relation to their children, who may or may not be their biological offspring. Thus, dependent on the context, women can be considered mothers by virtue of having given birth, by raising their child(ren),...

Mother - Wikipedia - Stress and pregnancy (prenatal and perinatal) Generally, stress during pregnancy has been associated with an increased risk for a number of negative outcomes in children. This topic aims to provide greater understanding of the potential effects of maternal stress on the mother, the fetus, and the child's development. Stress and pregnancy (prenatal and perinatal) | The ... -
